Theme word for this coming year:

Each year I ask the Lord for a focus word for the year. It is usually in line with the vision that you are creating.

Once you identify your theme word for the New Year, spend time searching the bible for scriptures to support your word. You will find as you go through the year this “theme word” will resurface again and again for you.

Some examples of theme words can be: Healthy, peace, joy, growth, focus...you get the idea? It is a word that you can build on all year long.

Spend some time asking God for a word for you...

My word for _____ is _____.

Now find scriptures for your word.
